## Mrs. Greenwood Mourned By Host of Friends

The host of friends of Mrs. Durnice A. Greenwood will be shocked to learn of her sudden death last Thursday afternoon at her Solano Avenue home. Her husband, Harry V. Greenwood, who has been in ill health, was devastated over her loss. Their son, John B. Greenwood of the Provo Police Department, arrived here a few hours after her passing.

Mrs. Greenwood, a native of Stockton, had lived in this area for 50 years, and was an active member of the Fraternal Order of Eagles, Bayview Auxiliary No. 2223, and of Albany Post No. 2558 Auxiliary of the Veterans of Foreign Wars which conducted a memorial service in her memory the evening before the funeral services were held.

Mrs. Greenwood was active in civic and social affairs and had attended a motion picture showing with a group of friends the evening preceding her death. For years she had been closely associated with the Albany Times, and was a close friend of members of the Times' staff for more than 22 years.

Funeral services were held Monday morning at the Ellis-Olson Mortuary, thence to the St. Ambrose Catholic Church where a requiem mass was celebrated at 9 a.m. There was a recitation of the Rosary on Sunday evening. Committal services were held at St. Joseph's Cemetery.

Survivors include her husband, Harry V. Greenwood; her son, John B. Greenwood of Provo, Utah; daughter-in-law, Sharon Christine Greenwood; sister-in-law, Grace L. McKanny, and Hazel B. Goodenough, both of Oakland, and two grandchildren, Cathie Christen and Michael John Greenwood.

## Chamber Chatter

By IRENE GROVE

"Let's Work Together" is the theme chosen for Albany's Clean-Up, Fix-Up, Paint-Up Campaign. Mayor Joe Carlevaro has proclaimed June 5-9 as the week dedicated to making Albany a cleaner, brighter city. Your Albany Fire Department has begun its door to door campaign to acquaint all householders with the rules and regulations of the home trash pick-up service to be provided that week. There will be a special edition of the Albany Times, May 31, just filled with interesting information, including space sponsored by your Chamber of Commerce and Albany merchants with hints and suggestions on home and business improvement — remember, you can get all those materials and services, right here in Albany.

So now it is up to you — join your neighbors, friends, business associates in a plus campaign that pays big dividends. A cleaner, brighter city not only is a more pleasant place to live but is the key to a more profitable future — as a community improves in appearance, there comes an increase in economic activity.

Note — We want to give recognition to your special ideas, projects, and improvements — Let us know what you are doing — call your Chamber of Commerce office at LA 5-1771 and we will see you receive the publicity.

Albany's own special queen, "Maid of Albany" — who will she be? That question will be answered, Saturday, May 27, at 2:00 p.m. at the Cornell School auditorium. Four very lovely candidates have entered (and I am not a judge). Applications will be received until Friday, May 26, and they are available at the Chamber of Commerce office or (Continued on Page 3)

## Mrs. Robert Luoma Sues School Board

Mrs. Robert (Fern) Luoma of Albany has filed a claim against the Board of Trustees of the Albany Unified School District for \$20,000 for damages allegedly caused on January 10 at Cornell Cafeteria when a table loaded with chairs collapsed and fell on her.

Through her attorney Walter Brophy, Mrs. Luoma charges that the table was in dangerous and defective condition. According to her claim, when she attempted to move the table, the chairs fell on her causing cuts and dislocation of the left foot, damage to her teeth, lacerations, severe bruises and muscular strain.

The School Board has denied the claim on the grounds that it pays a janitor to set up tables and chairs for organizations upon notification of how many persons are expected to attend. The group to which Mrs. Luoma belongs uses the cafeteria rent-free, a spokesman for the Board said. The claim has been referred to the District's insurance carrier.

## HEARING CALLED ON ONE-WAY STREETS

As a result of several months of study by an engineering firm the city several years ago designated Adams and Kains Avenues as one-way streets, with the understanding that the change was a provisional one and was subject to further study.

Recently the Traffic and Safety Commission has renewed its study of the traffic north and south through the city, in cooperation with City Administrator and City Engineer James Turner. As a result the council Monday night unanimously adopted changes believed advisable as a result of these studies, and ordered a public hearing on the matter to be held at the council meeting of June 5.

The changes proposed would continue Adams Street as one-way, with northbound traffic; one-way traffic on Kains would be reversed to southbound, while Stannage would be added to the one-way status to the north, and Madison would have one-way traffic to the south. The changes would be effective between Marin on the south, and Brighton on the north.

An ordinance providing for limited use of the old city dump was ordered prepared, to designate the type of "clean fill" which would be sought to prepare the tidelands for reception of all types of rubbish eventually. Administrator Turner declared this "clean fill" material would be brought in from various sources and distributed over the area by city employees. It would require several months of this work before the dump would be made available to citizens for dumping of rubbish, he said, as every precaution would have to be taken to prevent pollution of the bay waters by floating debris which caused the original closing of the dump.

A study of hazards, lighting and other matters at the Veterans Memorial Building, was ordered by the council, with instructions to immediately abate several hazards now said to exist.

Urgent repairs to the old city jail were ordered by the council and Engineer Turner was requested to submit an estimate of costs. This action came after City Attorney Foley had ruled that any move to secure facilities of the El Cerrito jail would not be feasible.

Engineer Turner declared that the report of the engineering firm of DeLew, rather than the preparatory work connected with the Buchanan Overpass and the opening of Marin — Buchanan as a through street — was most satisfactory. Also that the study had revealed the fact that it would be feasible to make the new thoroughfare a four-lane facility instead of three lanes as originally planned.

Restricted parking at the intersection of Adams and Castro Streets as a traffic safety measure was approved, following a public hearing at which there were no protests.

## Tracy Veterinarian Opens Hospital at 6621 Fairmount

Dr. Larson planned the hospital so as to accommodate both boarding and hospitalization of animals most efficiently.

**Chamber Chatter**  
(Continued from Page 1)  
The Albany High School of the "Maid of Albany" will make her first official appearance at the Albany Chamber of Commerce Annual Dinner, June 2 at Spenger's, as a very special honor guest.  
An speaking of that — remember you are all invited — table favors are arriving at your Chamber office and plans are shaping up for some real entertainment and a big evening.  
A real success — that was the Chamber Membership Luncheon, Thursday, May 18. More than thirty business men and women were there — the food was delicious — the meeting place was delightful — Thank you for the preview and congratulations to Johnny Lee and Mervin Berkey on those really beautiful dining, meeting, and lounge facilities at Berkeley Lee Motors at 718 San Pablo Avenue. The program was informative and interesting as Albany's administrative officer explained legislative issues affecting our city — and the meeting was over by 1:15. A special guest was Leo Keifer of El Cerrito who gave his views of Rapid Transit in Albany and El Cerrito.  
Which reminds us — Johnny's Barber Shop (used to be at 609A San Pablo Avenue), has a new address and new ultra modern quarters — it's in the new addition mentioned above, upstairs at Berkeley Lee — Stop in to see him. Congratulations to Jack Lynch on his new quarters for Jack Lynch Realty at 1207 Solano. Tastefully decorated and attractive — they are a real addition to the Avenue and city. Jack makes a wonderful host — his open house Friday night was delightful!

**Don't Forget To Change Address on Driver's License**  
Many California motorists neglect to change the address on their driver's license. Robert McCarthy, state DMV director said today.  
At the recent Hollywood Hills fire, only residents of the area were allowed to enter the area for several days. Law enforcement and fire officials had considerable trouble with persons claiming to live in the area that had not changed their addresses after moving.  
Address changes should be made within ten days, McCarthy explained. This can be done easily at any DMV or Highway Patrol office. There is no fee for this change.  
Another method is to note the address change on the back of your license and notify in writing the Dept. of Motor Vehicles in Sacramento. Be sure and include in the notification both the old and new addresses and the license number.

Putting another car in an emergency is not harmful to the mechanism of the vehicle doing the pushing if it is driven carefully, points out the National Automobile Club.  
Clutch and tires, the common sufferers, are not damaged if they are given a chance to take on the extra load gradually. This involves starting gently and picking up speed slowly and evenly.

against the Lord."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (pp. 234, 235): "Evil thoughts and aims reach no farther and do no more harm than one's belief permits. Evil thoughts, lusts, and malicious purposes cannot go forth, like wandering pollen, from one human mind to another, finding unsuspected lodgment, if virtue and truth build a strong defense."

From the Bible will be read these verses from I Peter (5): "Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour: Whom resist steadfast in the faith, knowing that the same afflictions are accomplished in your brethren that are in the world."

**JUVENILE OFFICER RAYMOND L. TERRILL** (right) of the Albany Police Department receives congratulations upon his successful completion of University of Southern California's Delinquency Control Institute from J. N. Bigelow, a director of Farmers Insurance Group Safety Foundation, a co-sponsor of the Institute.

## Albany Officer Completes Training At Delinquency Control Institute

Juvenile Officer Raymond L. Terrill of the Albany Police Department was graduated May 11 from University of Southern California's Delinquency Control Institute where he received post-graduate level training in the latest methods of handling juvenile offenders.

Officer Terrill has been in police work six years and four years in his present position. He also is working on his A.B. degree in criminology from University of California, Berkeley. He is a member of the All-Town Advisory Council.

Graduation of D.C.I.'s 32nd class brings to 556 the number of graduates who have given professional service to some 1,300,000 juveniles under the age of 18 years in most of the 50 states and 21 foreign countries. Ten of these graduates have become chiefs of police and two are law enforcement consultants to other nations. Many others have risen in rank in their departments to assume broader administrative responsibilities.

Speaking to the graduating class, J. N. Bigelow, a director of Farmers Insurance Group Safety Foundation, a co-sponsor of the Institute, said "I hope that when you return to your local depart-

ments you will receive the proper cooperation from your fellow citizens in carrying out the programs and improvements that you have learned here."

Organized in 1946, the Institute, directed by C. Robert Guthrie, is the original specialized training program for police juvenile officers and still is the most intensive.

A special screening committee selects students from a large number of applicants with most attending on a scholarship basis. Their course includes 12 weeks of intensive training in social treatment for delinquency, police techniques, conditioning factors in juvenile delinquency, prevention techniques, legal aspects, growth and mental development of youth, techniques of learning and teaching, administration of police juvenile programs and public speaking.

It is my certain conviction that no man loses his freedom except through his own weakness. — Mohandas Gandhi.

## SS. Hope Makes Milk From Sea Water

They are "farming the sea" on board the SS. Hope, an extension of Project Hope, a humanitarian People-to-People program. Currently operating in Indonesia where she is training local medical personnel and performing the everyday miracles of modern medicine, the SS. Hope has another, smaller miracle going for her: she is making milk from sea water.

The miracle of milk from the sea is made possible through the cooperation of the dairy industry which has donated the equipment in the Hope dairy. Five decks within the hull of the SS. Hope lies a modern dairy plant. Here, anhydrous milk fats, non-fat dry milk solids and purified sea water are combined into pure sweet milk for the crew, medical personnel and patients of the Hope and the thousands of children who visit her daily.

The entire operation is not as complicated as one might think. First, thousands of gallons of sea water, with its high salt content, are pumped into huge evaporating tanks. Here, the salt is removed from the water which is then pumped into purifying vats.

From that point on, the water is combined with milk proper-

ties. Then it is pasteurized, homogenized, chilled and pumped into a milk packaging machine. This machine forms cartons out of half-pint blanks, sterilizes them and fills and chills them for delivery to appreciative children of Indonesia.

The startling technique of making milk from sea water is the development of Foremost Dairies, Inc., in cooperation with The Ex-Cell-O Corporation. Foremost, one of the Big Three of American dairying, has a number of similar recombined dairy operations throughout the world.

In the past, these dairies have always had to be located near a source of fresh water. The development of the Hope dairy opens up new horizons for the everyday production of milk areas of the world where fresh water is in short supply or non-existent.

# LAW IN THE NEWS

A Service of the State Bar of California

## KINDS OF EVIDENCE

Some day you will be serving on a jury and will hear about several kinds of evidence. California law sees evidence in many ways:

(1) Evidence and proof. Judicial evidence is how a court settles a question of fact. It may include opinion and hearsay offered under safeguards. "Proof" is all of the evidence relevant to a disputed fact.

(2) Four kinds of evidence: a) a court's knowledge; b) a witness' testimony; c) writings; d)

other things presented to the senses such as pictures, charts, and physical things like clothing. California adds a sort of fifth kind of evidence — "presumptions" — such as that a child born in wedlock is the offspring of the man and wife.

### (3) Degrees of evidence:

a) Primary evidence yields the most certainty, e.g., a written paper, say a contract, is evidence of its existence and its contents.

b) Secondary evidence falls below primary, e.g., a copy or oral testimony of a paper's contents, as, for example, a lost will.

c) Direct evidence proves the fact in question without need of inference or presumption: A witness who saw an act may report what he saw.

d) Indirect or circumstantial evidence seeks to move one fact by proving another fact from which you may infer the first (e.g., jam on Jimmie's face). Though true enough, the indirect evidence may not always establish the fact in question beyond doubt.

e) Prima facie evidence (at first glance) serves as proof until overcome by contrary facts. Often such evidence is enough to accuse a person or to start a case; it is not proof. A Court may receive it and reject it later if it does not tie in with the disputed fact.

f) Indispensable evidence — the evidence without which a particular key fact in a law suit

cannot contradict a court record. g) Conclusive evidence cannot be contradicted; e.f., the parties in a lawsuit cannot contradict a court record.

h) Cumulative evidence is more and more of the same. One witness presents a fact, two or three may strengthen it, but one hundred would be overdoing the proof.

i) Corroborative evidence is more evidence to the same point but of a different character. Each new fact may fill out a picture.
